

Composition: 100% Polyester **Printed Width:** 140cm **Weight:** 554 g/m²

Usage: Commercial Drapery, Upholstery & Accessories | Occasional Outdoor Use

Performance

Abrasion: AS 2001.2.25.2 – 2006	100, 000 cycles	Colourfastness To Light : ISO-BO2-1994 (CMYK)	5 - (6-7)
Fire Rating: AS 1530.3	Yes	Colourfastness to Washing: AS 2001.4.15-2006	5
Pilling Resistance*: IWS 1 6-1996	5	Colourfastness to Rubbing: (AS2687 - 1997 Class 4)	Wet 4-5, Dry 5

Care Instructions

Machine Washable | Light Tumble Dry | Dryclean Code P | Warm Iron | Do Not Bleach

Maintenance

Regular maintenance will ensure a longer life to your fabrics.
Vacuum furniture regularly.

Attend to spills immediately:

- mop up excess with soft sponge
- wash fabric with mild soapy water or upholstery shampoo
- test a hidden area first, avoid rubbing area too hard
- clean off excess soap and water, allow to dry in the shade

* Pilling occurs when loose fibres on the surface of a fabric tangle together and form small balls or "pills". This is common in polyester fabrics and should not be considered a flaw. Pilling can be minimized by vacuuming furniture regularly to remove dirt and grit, by turning items inside out when washing, and by using a fabric softener when washing. Pilling can also be removed with any de-pilling tool and will not affect the quality of the print.
